

Dear Expectant Mother,

As you are considering placing your baby for adoption, know that we are praying for you, your baby, and your family. We have faith that everyone will be safe, loved, and healthy as God prepares your hearts and ours to meet the newest arrival. Our girls are so excited for the day when they can hold their new baby sibling. Hazel can't wait to help feed the baby. We know that they will be very loving big sisters!

Alex and I have been best friends since we were 13 years old and have been married for 9 years. After two difficult pregnancies, we will not be having any more biological children, but we have always intended to grow our family through adoption. We are at a time in our lives where we are well-suited to care for another child. Alex works from home 3 days a week, allowing him to be highly involved in family life, and Emily is a stay-at-home-mom. Your baby will be loved as our daughters are today, and he/she will grow up knowing they are a part of our family forever.

We hope to have an open relationship with you, as the birth mother, to the extent that you are comfortable. We are open to sending messages and pictures in the first years and potentially more as our relationship grows in the future. Thank you for taking the time to read our letter. If you feel led to choose us, just know that your child will be loved beyond measure and they will finally complete our family.

-The Wilsons

ALEX 31

PATSY 2

- ENJOYS PLAYING AT THE PARK AND GOING DOWN SLIDES
- LOVES RIDING HER TRICYCLE OUTSIDE
- LOVES READING BOOKS, ESPECIALLY "GOOD MORNING BABY"
- LOVES PETTING OUR CATS

We are National Park enthusiasts! We take a long vacation every summer, visiting as many National Park units as we can across the country! Alex and Emily have visited over 130 parks together. Our favorite park so far is The Grand Tetons! Last year, Hazel has started doing the Junior Ranger program and recently she visited her 50th park! Patsy is well on her way, having visited about 30. We can't wait to take the newest member of our family exploring in their first National Park!

We live on a 10-acre farm where we raise many chickens and ducks, two cows, and a large garden! We believe it is important to know where the food we eat comes from and to grow as much of it as possible ourselves. Each year, the girls like to pick new chickens for our flock based on their egg color, so now we get fresh eggs that are green, blue, brown, speckled, and white! They are so fun to collect and share with family and friends!

We moved to Illinois a few years ago to be close to family and we have tons of support now! All of the grandparents see the girls regularly and are available any time we need them. We see extended family each week at church where they come early just to spend extra time with our girls. Grandparents love to have the girls for sleepovers, get a cabin for vacation, or take them on special outings. Our entire family is so excited to add another child to the mix!
