

# JAKE & HANNAH

## *Dear Birth Parent,*

We know that you are in the midst of one of the hardest decisions of your life and we would like to do whatever we can to make it easier for you. Adoption means a lot to us. Our oldest daughter was adopted and we can't express how grateful we are for her, so now we are looking to adoption again for our final child. If you choose us, your child will be coming into a family that is already familiar with adoption and that will accept them wholeheartedly. He or she will be the baby of the family and have three older sisters to love them. In fact they can't stop asking when they will get a new little brother or sister.

## Our Family

A new baby joining our family would not only have three big sisters waiting on them, but would also have aunts, uncles, and grandparents ready to love them. We make an effort to put family first in our lives. That is why Hannah stays home with the kids and why we are both involved in the parenting. Jake even learned to braid and takes care of hair on Sunday mornings before Church.

## Finally,

We have been doing this parenting thing for a while now and we know that every kid is a different challenge, but one that is worth it. We can assure you that we know what we are getting into with both parenting and adoption. You may not know how you want the relationship between us and you to work yet, but we are willing to work with you and find out. Our prayers are with you and with your child.

## A little bit about us...

We have been married now for over ten years. We got married young, so don't worry we aren't old, and we are still a lot of fun. We go on dates where we eat too much Mexican food and have adventures where we get lost. For work Jake is an Agricultural Field Service Tech and Hannah is a stay at home mom. We are also involved in our Church and are currently helping run the youth group.
