

Dear Birthmother,

Hi, we are Ronnie and Jessie! We believe there is a good reason in life for everything and are excited to be on this journey of adoption again. We can only imagine what you are feeling at this time in your life and would love to be able to help you. We have been married for 15 years and have always wanted children. We have two boys, Hudson is 9 years old and Kai will soon be 3. They will make great big brothers! Before meeting each other we both lived on opposite sides of the country, how we both ended up in southern Illinois and found each other, had to be fate! We had our struggles becoming parents but always believed God had such a cool plan for us. We had been married 6 years when we were matched with Hudson's birthmother in Albuquerque, NM. That's a long, wonderful story that we hope to share with you sometime. Three years ago we decided to adopt again! Kia was born here in southern Illinois while we were vacationing in Hawaii. When we got the call, after only being there for 2 days, we couldn't not wait to get home to meet our son! They are both the light of our lives!

We love to travel, play baseball, go boating and spend time with family. We are both small business owners and love our work but love family time more!

God has blessed us twice with the miracle of adoption. We know we could give a child a loving and happy home. We understand this is not a decision to be made lightly. We pray for peace and comfort in your decision. May God bless you and your child! With Love-Ronnie and Jessie
